Cloud Computing is the best way to run your business

 Case Study 05 - vCloud.ie can help you reduce your Capex costs.

Problem

Food Surplus Management were unable to provide a reliable, uninterrupted remote access service for their external users; they also required significant investment in their in-house IT Infrastructure to provide the services that their users and business required due to the increased demand for their services within the market.

Solution:

Working hand in hand with the customer, vCloud.ie migrated FSM to the cloud. We designed and created an environment in the cloud; the solution provided FSM with the infrastructure their business required whilst reducing the capex costs and providing a reliable, innovative platform for FSM to continue to grow their business.

Client Profile:

Food Surplus Management are experts in food waste management serving the manufacturing, wholesale and retail food industry's waste requirements. They operate a fleet of trucks that collect product from industries the length and breadth of Ireland.

Quote

I'm not an expert in cloud computing, I try not to get smothered with the intricate details, that is what vCloud.ie are the experts in. In essence, cloud computing is the best way to run your business.
